

## Difference

Children are taught to recognise and accept ways we are different; it's ok to be different and no one should be left out due to difference.

It's ok to disagree, we can still be friends.

Children recognise the special people in their lives and explore how we show respect to each other.

## Stereotypes and discrimination

### Friendships

### Feelings

### Diversity

### Respect

What does a caring friendship look like?

Children are taught to recognise a range of feelings and to understand how feelings can be hurt.

Children are taught to recognise and embrace diversity in our communities. Families come in different shapes and sizes and all are welcome.

Children are taught that some parts of the body are private

### Safe/ unsafe behaviour

### Families

### Mental health

### Bullying

Children are taught to recognise ways people can face discrimination and explore responses.

Children are taught to speak up and tell someone if someone's behaviour is making them feel worried.

Children are taught how families change

Children are taught to be aware of their own mental health.

Children are taught what bullying is and how to tackle bullying.

### Identity and self-respect

### Marriage

### Body image

### Segregation

Children explore the impact of cyberbullying

The difference between a healthy and unhealthy relationship

Children explore different kinds of marriage in the UK today.

Children explore appearance ideals.

What does it mean to be assertive; when to speak up, and the consequences of remaining silent.

Children are taught to listen to different points of view.

What is segregation, what is the impact on society?
